

# Mason Schafer

[mason.schafer1@gmail.com](mailto:mason.schafer1@gmail.com) | Indianapolis, IN | <https://github.com/masonschafercodes>

Results-oriented, meticulous and innovative Full Stack Developer with 2 years experience building various types of websites using React, JavaScript, Typescript, and GraphQL. Looking to grow in a position that offers opportunities to learn and progress my skills.

**Technical Skills:** React, React Native, JavaScript, Typescript, Node, GraphQL, Prisma ORM, HTML, CSS

**Soft Skills:** Patience, Adaptability, Humble, Communication

## WORK EXPERIENCE

### IT Support Specialist

Company: **Zingas Home Solutions**

**Jan 2020 – Current**

- Collaborate with peers, business partners, and various support teams to provide continuous improvement
- Support hardware (e.g. laptops, desktops, tablets, smartphones, printers and faxes, multimedia, videoconferencing, etc.) on-site
- Employ Agile methodologies and ways of working
- Support local departments in making the best possible use of centrally provided IT services
- Proactively identify qualitative and quantitative weak points and address them to the proper recipient

### Lead Full Stack Developer

Company: **Emit**

**2020 – June 2021**

- Building IOS and Android App using React Native
- Building backend with Node and Prisma ORM and AWS
- Working with NFC technology to connect the software to the product
- Building a web app with NextJS for the Marketing Page and web version of the app to grab data from the NFC bracelet

## PROJECTS

Recurrence | <https://www.recurrence.app>

Reason for creating recurrence:

My reason behind creating recurrence is due to the fact that I always have trouble keeping track of what I subscribe to. Recurrence is there to help me see all of my subscriptions in one place and tell me how much money I am actually spending each month.
